| HEIGHT (INCHES) | APPROX. WT. LBS. | CATALOG NUMBER (INSERT SERVICE LINE CONN. SIZE) | ✓ SUBMITTED ITEM(S) |
|-----------------|------------------|---|---------------------|
| 15              | 10.5             | VHC74-15W-44-44                                 |                     |
| 18              | 10.8             | VHC74-18W-44-44                                 |                     |
| 21              | 11.1             | VHC74-21W-44-44                                 |                     |
| 24              | 12.7             | VHC74-24W-44-44                                 |                     |
| 27              | 13.0             | VHC74-27W-44-44                                 |                     |
| 30              | 13.3             | VHC74-30W-44-44                                 |                     |
| 33              | 13.6             | VHC74-33W-44-44                                 |                     |
| 36              | 13.9             | VHC74-36W-44-44                                 |                     |
| 39              | 14.2             | VHC74-39W-44-44                                 |                     |
| 42              | 14.5             | VHC74-42W-44-44                                 |                     |

### Service Line Size

| INLET         | OUTLET        |
|---------------|---------------|
| 1" (CTS) P.J. | 1" (CTS) P.J. |

**Note:** Ford recommends insert stiffeners when using plastic pipe or tubing

### FEATURES

- All brass conforms to AWWA Standard C800 (ASTM B-62, UNS NO C83600 - 85-5-5-5)
- Saddle Nuts hold the meter in place for tightening.
- Bracing Eye is standard on all 70 Series Coppersettors.
- Tie Bar is standard for 24" and taller Coppersetter heights (VHC74 Series).
- 1-1/8" Copper Risers provide more flow capacity.
- All Ford Setters are assembled with lead-free solder.
