CURB BOX LIDS NOW E-COATED

The Ford Meter Box curb box lids now feature Ford's new E-coat. This is not just another type of paint, it is a process that not only coats, but enhances and protects iron products unlike any other process used in water works. Before the finish is electrostatically applied, Ford products are processed through extensive pretreatment. The E-coat's high quality, black finish is highly resistant to damage from impact or corrosion; all at no extra cost to you. For more information about Ford's E-coat, contact your local Ford distributor or The Ford Meter Box Company.

Arch Base

Extension Type Curb Boxes
with Arch Pattern Base

Minneapolis Base

Extension Type Curb Boxes
for Minneapolis Pattern Curb Stops

For use with Curb Stops in sizes 1" and smaller. These curb boxes are also adaptable to 1-1/4", 1-1/2" and 2". *All boxes are heavily coated with black shop coat. Lids are E-coated.* Lids and bases are made from cast iron — upper sections are made from steel pipe.

For use with Curb Stops in sizes 3/4" through 2". *All boxes are heavily coated with black shop coat. Lids are E-coated.* Lids and bases are made from cast iron — upper sections are made from steel pipe.
