

Ford® Lockable Ball Valves

Introducing the Secura-Lok, a patent pending design that incorporates an integral locking mechanism on Ford Ball Valves.

B11-777SLB-NL

KEY-567-SLB

B11-444SLC-NL

KEY-234-SLC

Lockable in the:

- Opened Position
- Closed Position
- Operational Position

**Expanded Line
Coming Soon!**

Available for straight ball valves sized 5/8" through 2". The 5/8" through 1" valves secure the ball rotation via a key lock design while the 1-1/2" and 2" valves use an integrated barrel lock system.

To order:

For 5/8" - 1" Key Lock Style, add "SLC" to catalog number. Example: B11-444SLC-NL

For 1-1/2" - 2" Barrel Lock Style, add "SLB" to catalog number. Example: B11-777SLB-NL
